## THE DONG-A ILBO.

WISE AND OTHERWISE.

The "Labour", the organ of the Kwanto Labour Union in Japan, in its recent monthly issue, comments on the Japanese-American problem:—— 'The imperialistic Japan is not qulified to raise any complaint against America: Japan, the piliter-nation, can not but submit to the will of America, the burglar-nation." We ask, where is the police-nation?

In the course of a speech at Fusan on an ostentatious subject, "The Japanese-Korean Relation and the Asiatic Cultural Union", a certain Mr. Hosogawa' tapped a pessimistic vein, asserting that if the existing conditions in Korea should keep going on a common downfall of the two peoples would be certain. What say have the advocators of so-called "co-existence and common pros perity" in their turn?

Coming back on the completion of the investigation of North Saghalen, the Japanese Minister at Peking reveals the extraordinary fact that there will be a "panic" among the Russian inhabitants of the Island if the evacuation is carried into effect. One would reasonably suggest to him that he had better insist upon the Russian Government paying for the Japanese occupation which, he can successfully make out, is so preeminently beneficial to the Russian population.

After a number of successes in roundthe- world flight by various nationals other than Japanese, the birdmen of the Island Empire are going to attempt round-Japan aereal voyage. To show a more definite sense of safety, the round-Osaka-city aviation is the right thing.

In connection with the Luxury Taxation in Japan, articles of fine arts are also on the list. Since there is no gainsaying that poetry and novels are artistic productions, their price is bound to go up due to their foriegn birth.
